

“Some men see things as they are and ask why.  
Others see things that never were and ask, why not?”

- George Bernard Shaw

Brzycki Consulting Group is based upon the premise that individuals have the possibility not only of fulfillment and success, but also of greatness. Do you want to see and achieve your full and unique potential?

Greatness is accomplishing what you and others thought impossible. It is to the possibility of your greatness that our organization is committed. Have you given up on, or silenced your dreams for your life? Do you have a vision for a better quality of life?

The Vision Course is impactful results driven and profound. You bring to the course those issues and concerns that are important to the quality of your life. The course is designed around your particular future dreams – personal, professional, relationships, family, and career. The Vision Course is powerful because you are. We challenge you to design your own destiny for your life!

It is during the 8 weeks of The Vision Course that you learn the tools to design your own greatness, your own success, your own destiny. In the course you learn to develop your own understanding of your self and your life, and then to recontextualize them toward a new perspective about your future – one based upon your dreams of what you see is possible.

You will learn what your life is all about, what is important to you, what is your unique purpose in life, and tap into a new, inner motivation to see and achieve your greatness. You will learn that your life is about knowing you and about being related to possibilities bigger than yourself and about knowing that you can make them happen. In this course you are in charge of your own learning, and you fully utilize those resources – inner character and innate talents and abilities – that are available to you to achieve what you want. You will create distinctions about your self that empower your greatness and the full manifestation of your vision.
